**Back-office Integration** 

То

### **Open Financial Transaction Processing Platform**

#### October 9, 2012

# Dilemma

- 1. Shrinking budgets
- 2. Keep pace with technology
- 3. Need for resilient systems
- 4. IT solutions are natively proprietary
- 5. Financial transactions have become commodity
- 6. Focus on individuals, SMEs & large corporations

# An open platform leads to the commoditization of the processing layer

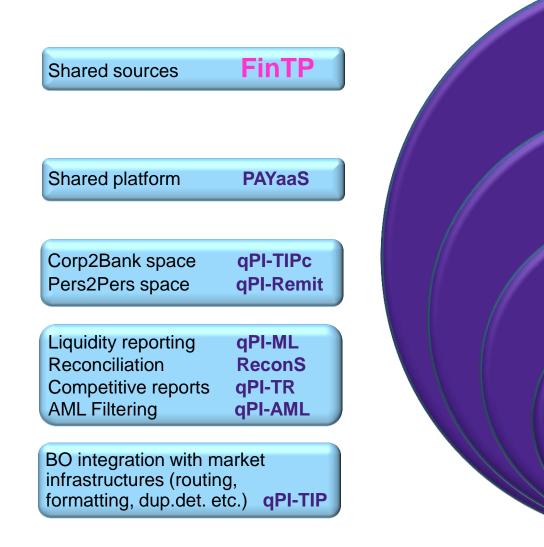

### **Open source**
