INTERNATIONAL

SOS Children's Villages in Bucharest

- As part of its Corporate Social Responsibility (CSR) programme, SWIFT strives to help local associations. As a special contribution to the Business Forum 2015 in Romania, we are proud to support SOS Children's Village Bucharest.
- SOS Children's Village Bucharest works closely with the families in the neighbourhood so that they can stay together. In collaboration with local agencies they ensure that children have access to essential educational, health and nutritional services. They also provide counselling for parents regarding legal and social issues. Young people can live in special youth programmes while they attend further education or training. They are guided by professionals so that they can learn to live independently.
- **SWIFT's 5.000€ donation will support the Family strengthening programme**
